

AJONYE PAUL

SOFTWARE ENGINEER | FULL STACK & MOBILE DEVELOPER

Nigeria | +234 7040212836 | ajonyepaul@gmail.com

Portfolio: ajonyepaul.dev | GitHub: github.com/paulchase

LinkedIn: linkedin.com/in/ajonye-paul-53158a194

PROFESSIONAL SUMMARY

Software developer with 4+ years building React Native, React.js, Next.js and Laravel applications. Delivered community, HR and recruitment products with real-time messaging, payments, APIs and cloud integrations. Trained approximately 30 students in web development.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, SQL, HTML, CSS

Frontend & Mobile: React.js, React Native, Expo, Next.js, Tailwind CSS

Backend & APIs: Laravel, REST APIs, GraphQL, third-party integrations

Cloud, Data & Tools: MySQL, Supabase, Firebase, AWS (EC2, S3), Azure, Git, GitHub, web hosting

PROFESSIONAL EXPERIENCE

Mobile App Developer | Webforx Technologies

February 2024 – Present

- Launched a React Native (Expo) community app with events, group chats, donations and reporting.
- Implemented real-time messaging and push notifications, contributing to a reported 30%+ increase in user engagement.
- Integrated secure authentication, expo-secure-store, and payments via Paystack, Flutterwave and PayPal.

Full Stack Web Developer | BridgeGap Consults Limited

March 2022 – Present

- Developed an HR management system using React.js, Laravel and MySQL to support payroll, recruitment and leave administration.

- Collaborated on a job board and interview platform that reportedly improved candidate-screening efficiency by 40%.
- Created internal bug-tracking software and improved housing/estate management interfaces and workflows.

Software Engineer Intern | Microsoft Africa Development Center Student League (MASL)

June 2023 – July 2024

- Collaborated on Medlink, an AI-driven healthcare application designed to recommend specialists based on reported symptoms.

Frontend Web Developer | Spotmate

November 2022 – July 2023

- Built responsive Next.js/Tailwind social feeds from Figma designs with user interactions, infinite scroll and media uploads.

TEACHING & TECHNICAL SERVICE

ICT Tutor (NYSC) | Wing Commander Abdullahi Ibrahim Vocational and Technology Institute, Lafia

November 2025 – October 2026

- Taught web development and coding to approximately 30 students across three successive three-month training cohorts.
- Delivered instruction in HTML, CSS, JavaScript, PHP, SQL, Git and web hosting, supporting learners in building practical digital skills.

SELECTED PROJECTS

Citardel: Digital library for educational materials built with Laravel, Livewire, Tailwind CSS and AWS EC2/S3.

Citardel AI: React Native study companion using the Gemini API to generate quizzes and essay questions from uploaded handouts.

Cliento: Freelancer management platform covering clients, contracts and projects; Next.js, Laravel API and GraphQL.

ADDITIONAL VOLUNTEER EXPERIENCE

Volunteer Full Stack Web & Mobile Developer | SearchMedia Radio Station

November 2021 – July 2025

- Built online booking and registration features for the university radio website and its first mobile streaming app.

Community Development Volunteer (SDG CDS, NYSC) | Lafia, Nasarawa State

November 2025 – October 2026

- Supported three health and awareness campaigns with medical, NDLEA and WHO personnel; estimated reach: 500–1,000 people.

EDUCATION

Bachelor of Engineering (B.Eng.), Mechanical Engineering

Federal University of Technology, Minna, Nigeria | 2018–2024

CGPA: 4.20/5.00 | Second Class Upper Division (2:1)
